

## ***Whyalla Men's Shed Newsletter May 23rd 2013***

Good morning to all,

The steering committee met on May 16th with 8 in attendance and 7 apologies, the business arising is as listed below

- **Great News**, we have obtained permission to meet on Wednesdays from 10.00am till 2.00pm until our shed is habitable. We had a team go out to the shed last Thursday to tidy up and all looks good for us to go. The location is 1-3 Knight Street, Whyalla Norrie which is the **Life Without Barriers** premises. Use the side gate on the right hand side when you look at the building from Knight Street. **Please use common sense when parking and park cars in the paddock beside their car park please.**
- The Knight Street premises will be available at other times should members request. This can be discussed by members on the day. Tell your friends to come along.
- Whyalla City Council development application approval was received on May 10<sup>th</sup> 2013 which will enable us to utilise the old Anglican Church at 55-59 Williams Street as our Shed once repairs have been made.
- Negotiations are in progress with the owner and lessee to have the premises repaired to a standard that we are able to begin using the premises.
- While these negotiations are being held the lease agreement is being discussed.
- The committee have requested six refurbished computers from a contact of Gary's in Adelaide which will be collected this week.
- We have a display for the Men's Shed at the Whyalla Male-Out Community Fun Day on June 16<sup>th</sup> 2013. We have a booth and require some more members to occupy and discuss with interested people.

It's been a pleasure to be part of this fantastic project and I thank Gary especially for the opportunity to do my bit. I will enjoy my holiday and come back a little inspired as Shed Coordinator by your enthusiasm and dedication.

*Brian Marshall*
