

TACTILE

POLY STUD TACTILES

Tough and long lasting. Unique formulation and large anchoring spigot is designed to deform and lock when driven into a cavity. This creates a strong and efficient means of mechanically fixing the Tactile Indicator to almost any surface. There is no requirement for adhesive, which means your installation is ready to walk on in minutes. Ideal for public transport and other high traffic areas. Best of all, you can do-it-yourself with our DIY Installation kits! Can be installed over concrete, bitumen, natural stone, ceramic tiles, pavers, timber, carpet and most other surfaces.

Colours include high visibility Yellow, Ivory, Grey, Black, Ocean Blue and Terracotta. Engineered tough with large anchoring spigot, safe and reliable anti-slip rating of R11 UV Stable and easy to install with new patented Drill & Lock technology Complies to AS/NZS 1428 part 4 Tactile Ground Surface Indicators
