## Our Team

**Advice Services Australia** has a team based approach to managing our business and our client's financial advice.

Our team includes specialists in Investment & Technical Research; Financial Planning Compliance; Financial Control and Prudential Management; Technology; Paraplanning and Advice Administration.

We also work together with a range of external of financial planning, investment, superannuation, mortgage broking, legal and accounting experts who we are happy to introduce you to. Alternatively, we can work together with the experts who are already on your team.

It is important to us that all team members and specialists undertake professional training and development on an ongoing basis. Our team based approach and dedication to ongoing training and development ensures that our clients always receive legislatively up-to-date advice which is in their best interest.
