

A Robotic Cleaner with Plenty of Bite!

SharkVAC[™]

ROBOTIC POOL CLEANER

A sleek, low-profile design and top-access to fine porosity filter cartridges are a few of the great features that give SharkVAC[™] added bite. SharkVAC[™] robotic pool cleaners utilise Adaptive Seek Control Logic (ASCL)[™] self-programming technology to calculate the most efficient cleaning pattern, determine pool size and power down at the end of the cleaning cycle. It brushes and scrubs while it vacuums and represents the pinnacle of energy efficiency whilst boasting the largest debris canister available.

SharkVAC™: For Your Swimming Pool

Top Access

- Top-access filter allows quick debris removal and easy clean-up just remove and rinse with a garden hose.

Teflon™ Reinforced Cord

- Provides rugged durability and longevity.

Drive Tracks

- Mechanised tread movement allows cleaner to work independent of the filter system.

Powerful Onboard Pump

- This venturi allows unit to suck up dirt and debris while roving the bottom, wall to wall.

Advanced Brush or Foam Roller

- Scrubs dirt on pool bottom and walls.

Model Number	Supply Output (Voltage)	Supply Output (Amps)	Cleaning Time	Flow (lpm)	Pool Finish	Cord Length (Metres)	Speed (M per min)	Porosity (microns)	Unit Wt. (kgs)
RC9021306AD	24 V DC	3.5	2 hrs	284	All	15.25	16.7	5	9.5

Features of the Hayward® SharkVAC™ robotic pool cleaner:

- Top-access filter allow quick and easy clean-up of canister.
- Adaptive Seek Control Logic (ASCL)™ ensures full quick coverage.
- Teflon™ reinforced cord for rugged durability and longevity.
- Fast, intelligent and energy efficient cleaning pattern.
- Engineered for durability using acetal/stainless steel on parts.
- Energy efficient while providing incredible vacuum strength.
- Vigorous scrubbing action along pool floor, wall to wall action.
- Cleans all residential pool surfaces, concrete, vinyl, & fibreglass.

A robotic cleaner with plenty of bite, and unparalleled energy savings.

SharkVAC™ uses up to 90% less energy than most pressure cleaners. The energy used by a standard light bulb is all that's needed to power this innovative cleaner. SharkVAC™ by Hayward® is a floor specific cleaner that delivers performance and price in a uniquely robust design. It cleans your pool's floor from wall to wall...right where the debris is! Compared to other robotic cleaners, the SharkVAC™ simultaneously uses fine porosity filter cartridges and a large debris canister to ensure all kinds of dirt and debris are systematically removed from your swimming pool every time it's used.

The super large 8.7 Litre debris canister combined with 2 x 0.65 m² fine porosity filter cartridges ensure large debris and fine dirt do not escape from a thorough clean-up.

AquaVac™ insulated floating cord technology with Teflon™ reinforcement ensures safe, durable and tangle-free operation.

Hayward® power supply transformer ensures unparalleled energy savings.

SharkVAC™ caddy is included for easy transport and storage of your robotic pool cleaner.
