# products

## 1. Pure Cleansing Gel (Ref. 5073)

- A gentle yet thorough cleansing gel from the Purity Intense line that contains moisturising glycerine and panthenol and purifies the skin without drying it out. Contains salicylic acid which has an antimicrobial and anti-inflammatory action and helps soothe irritated areas of problem, oily and combination skin. This Cleansing Gel prepares the skin perfectly for the following steps in the *Purity Intense* treatment programme.

## 2. Refreshing Toning Gel (Ref. 5075)

- A Refreshing Toning Gel containing an extremely effective antimicrobial zinc compound as well as moisturising panthenol. Also contains witch hazel which refines the pores, and allantoin which soothes red, irritated skin. The ideal follow-on product for use after *Purity Intense* cleansing: its gentle cooling effect, combined with the astringent action of witch hazel after cleansing and the gentle mechanical Enzyme Scrub, helps give your skin a new radiance. For a strong, even skin texture.

# products

## 3. Gentle Enzyme Scrub + Mask (Ref. 5074)

- A particularly effective peel treatment containing ingredients with a mechanical and proteolytic action. Contains papain, an enzyme found in papaya, which when used regularly has both an antibacterial and antioxidant effect and an anti-inflammatory action on problem, acne-prone skin. It also helps regulate sebum production and reduces skin thickening and unevenness, leaving your skin perfectly prepared for the next steps in your treatment programme. For thorough, deep-down cleansing and a fresh, radiant complexion!

## 4. 24-hour Facial Care Cream (Ref. 5071)

- The light, mattifying and moisturising texture of *Purity Intense* 24-Hour Facial Care Cream has an antibacterial action and its active ingredients combine effectively with salicylic acid and zinc to help your skin to return to normal. Contains sebum-regulating, keratolytic active ingredients that reduce skin impurities and help calm inflammation, boosting your skin's radiance for a young, healthy appearance!

# products

## 5. Ultra Effect Facial Fluid (Ref. 5072)

- Intensive emergency treatment that helps relieve skin impurities and irritations. This Facial Fluid sustainably regulates sebum production, has a keratolytic action and its active ingredients combine effectively with salicylic acid and zinc to help restore the skin's natural balance.

## 6. Purifying Gel (Ref. 5076)

- The Gelee Purifiante is a gel with purifying result. Concentrated active substances normalize the sebaceous and fat production, without drying up the skin.

# SK-10 Ampoules (Ref. 4071)

This anti-bacterial sulphur and herb concentrate has been formulated for the intensive treatment of impure skin. The impaired acid mantle common to problem skin is normalised. Witch Hazel extract refines the pores, while Allantoin soothes the skin and alleviates reddening and irritation.

## Tip

Support your facial care with:

- a lot of physical movement (sports)
- fresh air
- a healthy, balanced nutrition
