Genworks Australia Pty Ltd repair, service, install and sell electrical power generation systems and backup diesel generators. We specialise in the installation of new or used generators as well as automatic transfer switches and electrical solutions. We have a great range of generators for sale, in stock, ready for immediate delivery.

Terms & conditions apply. All prices exclude transport charges. All offers subject to availability at time of order. Images for illustrative purposes only. We reserve the right to correct errors & omissions. Prices may be subject to change at any time.

We warrant our products for faulty parts and defective workmanship.

This warranty does not cover misuse, incorrect or irregular maintenance, accidents during use and general consumables or battery.

We assess the appropriate action on any warranty claim on a case by case basis. This may require the generator or faulty part to be returned to our workshop for repair or, we may engage local repairers to conduct the generator works. Our diesel generators come with standard 12month or 1000hrs warranty. We provide generator fault diagnosis phone support and carry spare parts for our generators.
