

# EOFY BONUS

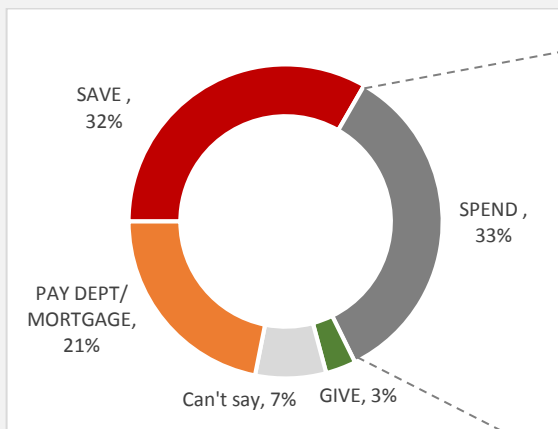

*What Australians would do with an unexpected End of Financial Year bonus of \$1000?*

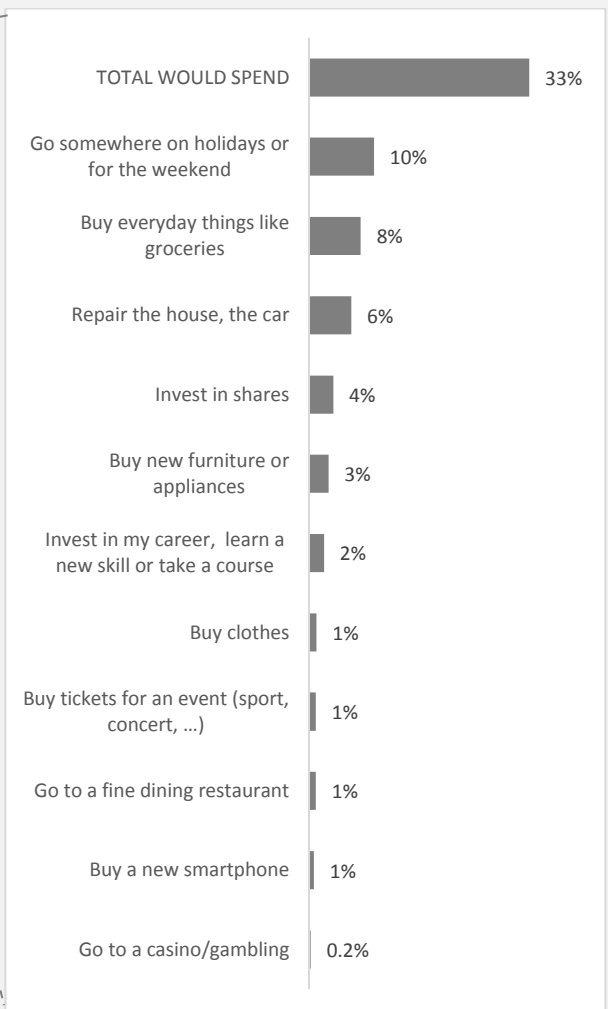

*This survey was conducted online by OmniPoll over the period June 23-28, 2017 among a national sample of 1,225 people aged 18 years and over. The results have been post-weighted to Australian Bureau of Statistics data to reflect the population distribution for age, sex, area and highest level of schooling completed.*

**We are at the end of the financial year. Imagine you receive an unexpected End of Financial Year bonus of \$1000, what would do?**

**A third would save the extra \$1000, but a third would spend it.**

**Spenders would most commonly use the bonus to go ... somewhere.**

**Saving is a higher priority for the youngest and oldest age groups**
